In **Islamic Banking in Indonesia**, renowned economist Dr. Rifki Ismal explores current issues in Islamic banking and financial products with a particular focus on the danger of liquidity risk in Indonesia. It approaches liquidity risk from the conventional perspective of international banking standards, as well as from the Islamic banking perspective. Dr. Ismal also covers the issues of asset-liability balancing, liquidity risk index, organizational structures for managing liquidity, industrial analysis, withdrawal risk, bankruptcy risk, moral hazard risk, and market risk.
